If any holder does not want to have a new keycard issued, they can use their digital Gopass card to use services that their AQUA 5 PASS entitles them to. If any holder wishes to have a new keycard issued, they have to pay the Gopass card issue fee and also a keycard surcharge based on the TMR price list.

2.1.2 No keycard holder is entitled to be paid the full price or its aliquot part back; or to receive any other form of compensation for the days they could not use services because they were late with the loss/theft report and their keycard got blocked later.

2.1.3 Keycard holders who fail to present the documents specified above are not entitled to receive substitute keycards or any other form of compensation for their lost or stolen keycards.

2.4 All fees and surcharges must be paid by clients to the operator when their substitute keycards/Gopass cards are issued.

3. SPECIAL TATRALANDIA WP and BEŠEŇOVÁ WP ENTRANCE FOR AQUA 5 PASS HOLDERS

3.1 Every authorised AQUA 5 PASS holder is entitled to ask the staff of the client centre in the Tatralandia WP or the Bešeňová WP (hereinafter referred to as **"client centre"**) to have an exclusive product – **a reloadable chip** issued. Every authorised AQUA 5 PASS holder can use a reloadable chip to enter the Tatralandia WP or the Bešeňová WP comfortably through a special entrance without having to pass public ticket offices. The special entrance is marked, located next to the client centre in each of the water parks and designated only for authorised AQUA 5 PASS holders, including those who don't have reloadable chips (hereinafter referred to as "**special entrance**").

3.2 The reloadable chip is a wristband with a built-in chip that serves to enter either of the water parks and to buy products and services in either of the parks for a total amount of EUR 100 which has to be paid every time when leaving the park.

3.3 To have a reloadable chip issued, the respective AQUA 5 PASS holder must pay a EUR 5 deposit in the client centre. The deposit will be paid back to the chip holder in the client centre of the Tatralandia WP or the Bešeňová WP (depending on where the chip was originally issued) if it is not damaged when returned. Otherwise, the deposit shall be used by the operator to buy a new chip and a new wristband and will not be returned to the client. If any reloadable chip gets damaged during the validity period of the respective AQUA 5 PASS, the authorised AQUA 5 PASS holder can ask to have a new reloadable chip issued if they pay a new EUR 5 deposit.

3.4 Reloadable chips **cannot** be issued for and used by children up to the age of 5.99 years.

3.5 Every reloadable chip loss or damage must be reported by its authorised holder to the client centre where it was originally issued. Otherwise, the authorised holder is responsible for any related damage, especially in the case of a loss (e.g. chip blocking due to unauthorised use). Once a reloadable chip loss is reported, the chip gets blocked immediately, and the authorised holder can get a new reloadable chip based on point 3.3 of these General Terms and Conditions. If any reloadable chip is misused before its loss is reported, the operator is entitled to block it, and the respective customer is not entitled to be compensated financially or non-financially for not being able to use the services that their AQUA 5 PASS related to the reloadable chip entitles them to.

3.6 TMR uses an internal system to check the rights related to any authorised AQUA 5 PASS possession. The system uses face recognition of AQUA 5 PASS holders or reloadable chip holders based on photos provided by individual clients when buying their AQUA SEASO5 PASSES. The checking system described in this point complies with all applicable data protection regulations.

3.7 The TMR company is entitled to block any AQUA 5 PASS and/or reloadable chip to prevent the respective holder from exercising their rights related to their authorised AQUA 5 PASS possession if the AQUA 5 PASS and/or reloadable chip is not used by the person that is entitled to do so, i.e. not by the person that the AQUA 5 PASS and/or reloadable chip was issued for and whose name is written on the contactless keycard (i.e. the name and the photo on the AQUA 5 PASS and/or reloadable chip do not correspond with the identification details of the person that is being checked). Every AQUA 5 PASS and/or reloadable chip is a non-transferable product and valid only if used along with an ID or another document proving the identity (health insurance card in the case of children younger than 15 years). The TMR company is entitled to block any AQUA 5 PASS and/or reloadable chip if the respective authorised AQUA 5 PASS and/or reloadable chip holder prevents the operator from checking the non-transferability of the AQUA 5 PASS and/or reloadable chip intentionally or deliberately, especially by misleading the operator about the identity of the

person that is using the AQUA 5 PASS and/or reloadable chip, i.e. by covering the face (with a hand, a scarf etc.), or by rejecting to cooperate when the authorised use of AQUA 5 PASSES and/or reloadable chips is checked.

3.8 If an AQUA 5 PASS and the respective reloadable chip (if purchased) are blocked based on point 3.6 or 3.7 of these terms and conditions, the respective customer cannot ask the operator to have a new AQUA 5 PASS issued, and they are not entitled to any financial or non-financial compensation or to have the paid pass price or its aliquot part refunded.

If the trader does not acknowledge (rejects the grounds of) the customer's complaint, they shall inform the customer of the reasons for not acknowledging the complaint in writing.

4.7 **No compensation is offered by the provider** for any day when clients cannot use services that their AQUA 5 PASSES entitle them to or if they can use the services in a limited way only.

4.8 The TMR company reserves the right to assess each complaint case individually, to decide if the respective complaint and the claim to compensation are justified and to determine the compensation form and amount.

4.9 Any customer has the right to submit a request for redress to the trader in accordance with § 11 Sec. 1 of Act No. 391/2015 Coll. on Alternative Dispute Resolution for Consumer Disputes and on Amendments and Supplements to Certain Acts, as amended, if a dispute arises between the customer as a consumer and the trader regarding the rights arising from liability for defects (if the customer is not satisfied with the way how the trader handled their complaint) or if the customer as a consumer believes that the trader has violated their other rights. The trader will assess the request and inform the customer how it shall be resolved within 30 days after it is submitted. If the trader rejects the request or does not respond to it within 30 days from the day it has been sent by the respective customer, when asked by the customer as mentioned above, the customer is entitled to ask for an alternative dispute resolution in accordance with § 12 Act No. 391/2015 Coll. on Consumer Alternative Dispute Resolution and on amendments and supplements to other acts.
